

METAL AND LEATHER MELTS TOGETHER

ARKIMEDIA
oltre la pelle

EURO
MINUTERIE SRL

Craftsmanship gives **authentic**
value and **identity** to each creation.

Innovation with advanced technologies,
new materials and sustainable solutions
allow us to **experiment** with new
shapes, textures and functionalities.

Founded in **1993** as a manufacturer of leather straps for the most prestigious watchmaking brands, **Arkimedia** has evolved over the years by offering avant gard solutions. It has explored **new materials** and processes, often sourced from other branches, achieving results that frequently **anticipate** market demands with environmentally conscious **projects**.

Founded in **1979** by Cav. Adriano Rigato, with decades of experience in the sale of small **metal** parts. With the design and in-house manufacture of dies, punches and production molds has enabled **Eurominuterie** to make itself autonomous and flexible, constantly striving to **innovate** and to provide **products** that meet increasingly complex needs.

Two realities just a few kilometers apart, where **creativity**, **craftsmanship** and **know-how** come together. Expert hands intertwine giving life to exclusive products
100% Made in Italy with a tailored and highly flexible service.

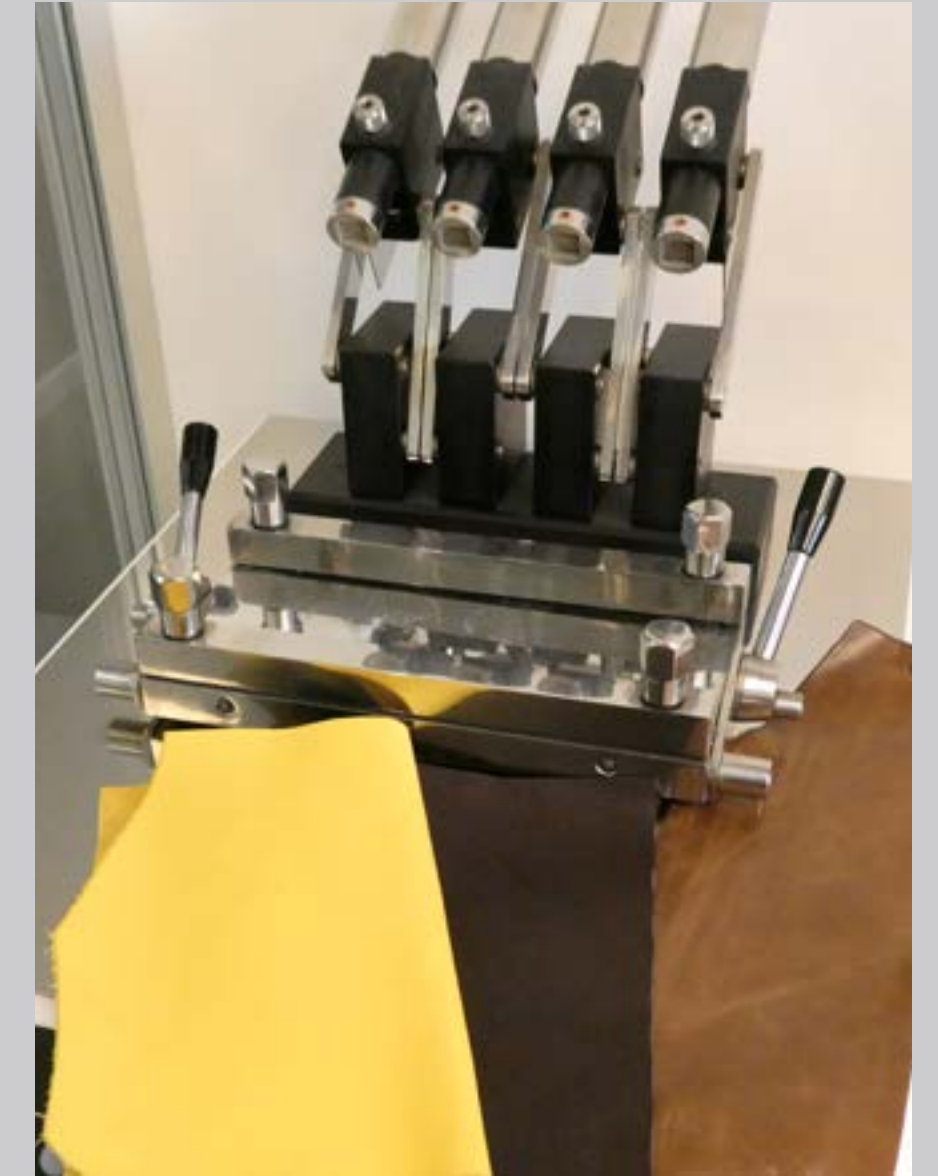

An innovative **partnership** in the field of leather goods and footwear applications. Processing on **leather** combined with **metal** small parts and accessories for customized **solutions**.

Leather and metal come together, combining **creativity, craftsmanship** and **technical** expertise, collaborating with synergy to transform every idea into reality.

We propose a **service** designed to maximize **flexibility**, reduce production time and ensure precise **control** of the supply chain. Every process is taken care of in **details**, ensuring rapid adaptability to the requirements of the customer, for **optimal** and **timely** results.

Thanks to the **ability** to make in-house the molds and tooling, through the use of **CNC machine** tools, we respond with timeliness, punctuality and **precision** to all the expectations of our customers, even the most complex ones.

R&D with transversal skills to study each project together respecting the stylistic, production and **identity** needs of each brand, offering exclusive services such as the creation of **customised samples**.

Our productions, **100% Made in Italy**, are the result of extensive experience. Every phase of the process, from design to execution, is driven by deep **expertise** and **authenticity**, where skill, passion, and dedication come together to deliver quality products while preserving and enhancing **Italian tradition**. To support manual craftsmanship, we also employ technologies such as **laser** cutting, **automatic** cutting, and **3D** printing to produce prototypes promptly.

Our commitment goes beyond creation: we aim to make a **difference** by working **respecting** the environment, using sustainable **materials** and favouring **local** suppliers, thus contributing to enhancing the territory. The importance of **certification** and traceability of the supply chain are fundamental to guarantee **transparency**, quality and a **positive** and lasting impact on our ecosystem.

*United by the same vision, every **detail** is carefully thought out,
every step is measured with dedication, creating **value** that remains over time.*
